Career Objective

Motivated and detail-oriented AI Engineering student with 5 years of experience in creative media production and a growing specialization in artificial intelligence, machine learning, and data engineering. Seeking opportunities as an AI Engineer—full-time, part-time, or freelance—where I can merge my creative background with analytical problem-solving to deliver innovative solutions.

Education

Bachelor's Degree in Artificial Intelligence Engineering (Ongoing)

Faculty of Engineering – [Specify University Name]

Expected Graduation: 2026

Relevant Coursework: Machine Learning, Data Science, Data Engineering, Algorithms & Data Structures, Database Systems.

Professional Experience

Freelance Video Editor & Graphic Designer (Remote)

Self-Employed — 2019–2024

- Delivered over 200 high-quality projects to global clients via Khamsat, Fiverr, and Mostaql, achieving consistent 5-star ratings.
- Designed and edited promotional videos, explainer content, and motion graphics for brands across diverse industries.
- Utilized Adobe Premiere Pro and Adobe After Effects to create visually compelling and engaging content.
- Managed full project lifecycle—from concept development to final delivery—ensuring deadlines and quality standards were met.
- Built and maintained strong client relationships, leading to repeat business and referrals.

Projects & Academic Work

- Image Classification Model – Developed a basic machine learning model in Python for classifying images into categories, using TensorFlow and scikit-learn.
- Data Cleaning & Visualization Project – Processed and visualized datasets using Pandas and Matplotlib to identify trends and insights.
- Automated Video Editing Script – Experimented with Python automation tools for batch video processing.

Skills

Technical Skills

- Adobe Premiere Pro, Adobe After Effects, Photoshop (basic)
- Python Programming
- Machine Learning & Data Science (pandas, numpy, scikit-learn, TensorFlow basics)
- Data Engineering fundamentals (ETL processes, SQL basics)

Soft Skills

- Teamwork & Collaboration
- Time Management & Prioritization
- Problem-Solving & Critical Thinking
- Adaptability & Learning Agility
- Working Under Pressure

Languages

- Arabic: Native
- English: Intermediate (spoken & written)

Achievements

- Established a successful freelance career at age 15, sustaining client work for 5 years.
- Delivered creative projects to clients in over 5 different countries.
- Achieved a 98% client satisfaction rate on freelance platforms.

Interests

- Artificial Intelligence Research

- Creative Media & Storytelling
- Data-Driven Product Development
- Emerging Technologies & Automation
